

**CAPITAL UNIVERSITY LAW SCHOOL
LIFE CARE PLANNER –NOVEMBER 2009 PROGRAM
ONLINE SCHEDULE**

Capital University Law School’s Online LCP program is a distinctive blend of an online classroom format with direct communication between the faculty and students. This program has been approved by CHCC (Commission for Health Care Certification). Our LCP program offers an interdisciplinary approach which affords the student the opportunity to gain necessary skills for developing a life care plan and to explore how your life care planning skills can be utilized in the legal environment. This unique online program commingles the legal and medical aspects of the LCP profession, and teaches hands-on, competency-based deposition and trial practice skills which are essential to your success as an expert witness. The curriculum is the only one of its kind that includes an elective module covering comprehensive medical research, in addition to appearing in our state-of-the art courtroom to defend your own life care plan before practicing attorneys, a judge and jury during direct and cross examination. As you are aware, trial practice is a requirement to take the CLCP exam.

The Life Care Planner Professional Certificate Program requires the completion of six required modules: with five modules online and one onsite Trial Practice module. The entire program is comprised of 136 clock hours, and is pre-approved for federal financial aid. The entire program of required modules is completed over a six-month track; with the onsite Trial Practice module providing the student a courtroom experience, an intensive exam review course presented by Commission on Health Care Certification, and an opportunity to take the life care planner certification exam onsite at Capital.
